Skills

C#

React

AngularJS

SQL

CSS

Umbraco

Photoshop

Unity 3D

I am currently a full stack developer for the Web Solutions department at IRESS in Warwick, where I have been employed since April 2016. I also run an independent video game studio called Flump Studios and a small web design company called Plinx.

I have been developing software and games for over 25 years and I have a very strong passion for software development and programming. Over the years I have gained experience developing with C++, C#, Unity, VB, Lua, HTML, CSS, SASS, Javascript, AngularJS, ReactJS, ASP.Net, SQL and various other languages and frameworks.
